Check out the new replay feature in [Milan-style results](#) as posted on this website.

- Pull up your personal score sheet and you'll see an icon that looks like a scroll of film at the end of each row .. under the Play header.
- Click on that and you'll be taken to a BridgeWebs page that will repeat the sequence of play as it happened.
- You need to select the contract first - click the yellow square.
- The card actually played has an asterisk beside it whereas the recommended cards along with the number of tricks possible are shown in green.
- Another great learning tool!
